14.	Average Nominal Hourly Wage Index-numbers - Adult Males - States - December, 1938 to September, 1952.	13
15.	Number of Persons receiving Unemployment Benefit - States - June, 1947 to December, 1952.	13

INTRODUCTION

Except where otherwise specified the figures contained herein are based on data obtained from the 1933 Census, the Civilian Register of 1943, the Occupation Survey of 1945, Annual Censuses of Factory Production and returns from Governmental Authorities, together with Monthly Pay-roll Tax returns lodged by employers (other than Commonwealth Government Authorities, religious and benevolent institutions and public hospitals) paying more than £20 per week in wages.

The terms "Employment", "Number Employed", "Employees" and "Wage Earners" herein are synonymous with, and relate to, "wage and salary earners" on pay-rolls or "in employment" in the latter part of each month as distinct from numbers of employees actually working on a specific date. They include persons employed part-time.

Figures for recent months are subject to revision.

S. R. CARVER

ACTING COMMONWEALTH STATISTICIAN

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

CANBERRA. A.C.T. 22ND JANUARY, 1953.

1. The figures relating to employment published in this Bulletin are estimates. Further investigation may show the need for some revision in the monthly aggregates. It is not anticipated, however, that any such revision will affect the trends shown by the figures in Tables 1 to 8. Some revision will be necessary in the totals and trends in employment shown for individual industries (particularly manufacturing) in Tables 9 and 10. Tables showing employment in individual classes of Factory are in process of revision.

2. Call-ups for short periods of National Service training have occurred from time to time since August, 1951, and other variations occur in numbers of personnel in the Services. These are shown in item 4 below and in Table 4 page 3 hereof. Relevant figures are as follows:-

AUSTRALIA : MALES (Thousands)
(Excluding employees in Rural Industries)

	1951	1952					
	November	June	July	August	Sept.	October	November

TABLE 11 : EMPLOYMENT IN LARGER PRIVATE FACTORIES
NEW SOUTH WALES AND VICTORIA, DECEMBER, 1952.

By joint arrangement between the Secretary of the Department of Labour and National Service and the Acting Commonwealth Statistician a regular monthly survey of employment in the larger privately-owned factories of New South Wales and Victoria was instituted in January, 1952. Practically all private factories with 100 or more employees and a large section of those with between 50 and 100 employees were surveyed. In total the factories covered in the survey accounted for approximately half the total employment in privately-owned factories in both States. A summary of the results to date, relating to 1,397 private factories is as follows:-

Period End of Month	Employment			Percentage movement since previous month		
	Males	Females	Persons	Males	Females	Persons
January, 1952	246,178	88,959	335,137			
March, 1952	243,866	85,284	329,150	- 0.4	- 2.9	- 1.1
April, 1952	240,314	80,750	321,064	- 1.5	- 5.3	- 2.5

* Revised

The trends shown in employment in these larger private factories are broadly consonant with those shown in estimates of total private factory employment, derived from Pay-Roll Tax Returns, in relevant States, for the periods for which comparisons are available. The decline in the estimated total for all private factories in the two States combined for the period from January to November, 1952, was 8.5 per cent., as compared with 11.6 per cent. for the 1,397 factories of the present survey.

An industrial grouping of the numbers of persons employed in the larger private factories surveyed, males and females being shown separately, is as follows:-

Industrial Group	Employed in factories surveyed (Both States)				Percentage movement in employment	
	January	October	November	December	October- November	November- December
MALES						
1. Building Materials	19,466	17,517	17,593	17,621	+0.4	+0.2

(a) Includes brewery employees on strike.

(b) Revised.

The foregoing figures relate to 617 factories in New South Wales, representing about 3.6% of all factories in that State, and 780 factories in Victoria, representing about 5.8% of all factories in that State. Approximately half of total private factory employment in each State is covered by the collection.

The instruction as to employees to be included in the returns was as follows: - "The number of persons employed is to include all persons on the establishment of the factory who are engaged in the factory or on the factory office staff, provided their employment is directly related to manufacture", and further"... the number of males and females (separately) employed in the specified factory or mill. These figures are to include factory office staff, but are to exclude selling and distribution staff". The figures obtained relate to the numbers on the pay-roll as at the last pay-day in the month.

The survey was instituted to provide an earlier indication of trend of private factory employment, month by month, than is available from any other source, and the results will in future be published in this Bulletin.

NOTES TO TABLES 9 AND 10.

- (a) Includes Northern Territory and Australian Capital Territory.
- (b) Refers to estimated employment in factories as defined for the purpose of the annual production census, results of which are published annually in the Secondary Industries Bulletin. In this connection, a factory is defined as an industrial establishment in which four or more hands are employed, or in which power other than hand is used. The employees covered are those engaged in manufacturing activities and exclude those engaged in selling and distribution, etc. Revision will be necessary in the estimates herein as to numbers of employees in factories since June, 1948 within the above definition. A new series of returns has been instituted as from January, 1952, which shows the same approximate trend as the figures herein since that date. A survey of the results obtained from this series is presented in Table 11.
- (c) Includes employees in industrial establishments outside the scope of the definition of a factory (given in (b) above) and persons employed by factory proprietors but engaged in selling or distribution, etc., who are excluded from figures shown opposite "Factories".
- (d) Includes Law and Order, Religion and Social Welfare, Health, Education, Other Professional Services, Entertainment, etc. and Personal Service (Hotels, Restaurants, etc., excluding female private domestics). In respect of females only, also includes Forestry, Fishing, etc., Mining, Building and Construction.
- (e) Includes persons employed on private building, and employees of private employers contracting to public authorities, on building construction, alterations, maintenance and repairs.
- (f) Includes employees on construction of roads, bridges, earthworks, etc., and employees directly employed by public authorities on building and maintenance of buildings.
- (g) Includes Hotels, Restaurants, Hairdressing and Other Personal Services (except female private domestic).

TABLE 12 : AVERAGE WEEKLY WAGE EARNINGS (a) - AUSTRALIA.

Index-numbers (Base 1945-46 = 1000)

Revised Series

(Seasonally adjusted)

Year	Index-numbers		Quarter	Index-numbers	
	All Industries (b)	Manufacturing		All Industries (b)	Manufacturing
1945-46	1,000	1,000	1950 -		
1946-47	1,037	1,056	June Quarter	1,520	1,588
1947-48	1,164	1,206	Sept. Quarter	1,588	1,655
1948-49	1,322	1,365	Dec. Quarter	1,650	1,731
1949-50	1,451	1,505	1951 -		
1950-51	1,742	1,810	March Quarter	1,815	1,870
1951-52	2,145	2,213	June Quarter	1,915	1,984
			Sept. Quarter	2,020	2,107
			Dec. Quarter	2,129	2,182
			1952 -		
			March Quarter	2,183	2,258
			June Quarter	2,249	2,304
			Sept. Quarter	2,305	2,371

(a) Including salaries. (b) Average earnings per male unit employed. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings.

NOTE:- The two series in the above table are not comparable horizontally. Further explanation to this table is shown on page 12.

The "All Industries" index is based on Pay-Roll Tax returns and other data.

The index for manufacturing industries for the years 1945-46 to 1950-51 is based on average earnings of male wage and salary earners employed in factories as disclosed by annual factory returns. Figures subsequent to June, 1951 are preliminary estimates based on Pay-Roll Tax returns.

TABLE 13 : AVERAGE NOMINAL WEEKLY WAGE INDEX-NUMBERS : ADULT MALES
INDUSTRIAL GROUPS - STATES, 31ST OCTOBER, 1952 (a).

The index-numbers in the following table are based on averages of wage rates for a full week's work obtained from awards, determinations and industrial agreements. The average rate of wage for each industrial group in each State is the arithmetical average of the rates of wage payable for classified occupations within that group. The figures for "All Groups" for each State and for each industrial group for Australia are weighted averages.

The base of each index-number is the weighted average weekly wage for Australia of all industrial groups for the three years ended 30th June, 1939 = 100.

Industrial Group	N.S.W.	Vic.	Q'ld.	S.A.	W.A.	Tas.	Aust. (b)

All Groups (b)	314	301	295	299	316	300	306

(a) The figures of nominal wages are in course of revision to meet changes in industrial structure.

(b) Weighted average.

(c) Average rates of wage prevailing at the principal mining centres in each State.

(d) Excludes districts allowances in the gold-mining industry.

(e) Average rates of wage on which index-numbers are based are for occupations other than masters, officers, and engineers in the Merchant Marine Service, and include value of victualling and accommodation, where supplied.

(f) Includes the estimated value of board and lodging, where supplied.

13.

TABLE 14 : AVERAGE NOMINAL HOURLY WAGE INDEX-NUMBERS : ADULT MALES, STATES (a).

The index-numbers in the following table are based on averages of wage rates and hours of labour for a full week's work obtained from awards, determinations and industrial agreements. The average rate of wage for each State is the weighted average of the wage rate for each industrial group in that State. The average rate of wage for Australia is the weighted average of the wage rates for each State.

The base of each index-number is the weighted average hourly wage for Australia for the three years ended 30th June, 1939 = 100.
